

PATENT
Attorney Docket No. **PSORAYA-04922**

Remarks

Claims 1-51 are pending. Applicant thanks the Examiner for allowance of the claims and the help she has provided.

In paragraph 1, the Examiner requests a new declaration because the statement that "The original attorney of record failed to appreciate the full scope of the invention" is not a description of specific error. Applicant submitted a corrected declaration on September 24, 2003, and attach a copy of those papers hereto for the Examiner's convenience. It is believed that this new declaration states a specific error.

In paragraph 2, the Examiner requests that the applicant provide the original patent or a statement of loss or inaccessibility. Applicants submit herewith an equivalent of Form PTO/SB/55 which states that the original ribbon patent is lost or inaccessible.

Conclusion

Applicants believe this response is responsive to the Office Action dated November 4, 2004. If the Examiner has any questions, she is encouraged to contact the undersigned at 608-218-6900.

Dated: January 7, 2005

Attorney Docket No PSORAYA-06975

REISSUE APPLICATION DECLARATION BY THE INVENTOR

As a below named representative of a deceased inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the representative of the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent No. 5,852,060, granted 12/22/1998, and for which a reissue patent is sought on the invention entitled **Antipsoriatic Compositions, Method Of Making, And Method Of Using** the specification of which was filed on 12/20/00 as reissue application number 09/746,536.

I have reviewed and understood the contents of the above identified application, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawings.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patents.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening: The representatives of the deceased inventor failed to appreciate the scope of claims they were entitled to. In particular, the representatives of the inventor did not appreciate that they could obtain claims directed to combinations of the active ingredients found in *Asphodelus microcarpus* with pharmaceutical excipients, as claimed in the reissue application.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant. As a named representative, I hereby appoint the following attorney(s) and/or agent(s) to prosecute this application and transact all business in the United States Patent and Trademark Office connected therewith.
